EDUCATION

Columbia University

Master of Arts in Quantitative Methods in the Social Sciences, Data Science Track

Sep. 2025 – Dec. 2026 (Expected)

New York, NY

- **GPA:** 4.0/4.0, **Relevant Coursework:** Machine Learning, NLP, Time-Series, Panel Data & Forecasting.

National Cheng Kung University

Bachelor of Arts in Political Science, Minor in Industrial and Information Management

Sep. 2019 – Jun. 2025

Tainan, Taiwan

TECHNICAL SKILLS

Programming: Python, R, C++, SQL, Git, Tableau, Power BI, Streamlit

Libraries & Tools: PyTorch, Hugging Face, Scikit-learn, XGBoost, Pydantic, FinBERT, Figma

Domains: Machine Learning, NLP, Time-Series, Econometrics, Clinical Data, Carbon Accounting, Climate Policy

INDUSTRY EXPERIENCE

NociQuant Inc.

Machine Learning Intern

Jun. 2026 – Aug. 2026

Minneapolis, MN

- Standardized fragmented clinical evidence by building a Python and Gemini API pipeline that generated diaries and normalized findings for 110+ synthetic patients across over 10 diseases.
- Enabled reproducible temporal reasoning by converting symptom onset, course, and periodicity into JSON schemas, computable predicates, and a two-rater evaluation protocol.

Carbon Walker Technology Co.

Startup Co-Founder & COO | carbon-walker.com

Aug. 2024 – Present

Tainan, Taiwan

- Launched an automated transportation carbon-tracking SaaS aligned with ISO 14064 and CBAM, validating product usability with over 100 users and converting daily mobility data into measurable emissions outcomes.
- Reduced financial exposure to evolving climate regulations by developing Python-based compliance cost models and cross-functional payback analyses for enterprise carbon-management decisions.

State of Montana Asia Trade Office

Data Assistant

Aug. 2024 – Jul. 2025

Taipei, Taiwan

- Developed interactive Excel dashboards to compare regional FDI advantages, enabling data-driven market evaluation and strategic planning for cross-border B2B partnerships.

American Institute in Taiwan (AIT)

Data Intern

Sep. 2023 – Dec. 2023

Taipei, Taiwan

- Converted large-scale qualitative interviews on U.S.-China-Taiwan relations into structured policy datasets by developing a custom coding taxonomy and visualizing recurring geopolitical themes.

APPLIED RESEARCH & PROJECTS

Corporate Greenwashing Analyzer

Machine Learning, Streamlit | [Live Dashboard](#)

Feb. 2026 – Apr. 2026

Columbia University

- Deployed an interactive ESG analytics platform and trained a Random Forest classifier to detect greenwashing patterns across 450+ company-year observations using financial and sustainability indicators.

BlackRock Corporate Rhetoric Analytics

FinBERT, NLP

Jan. 2026 – Mar. 2026

Columbia University

- Analyzed BlackRock corporate disclosures using FinBERT to quantify semantic shifts, identifying a complete replacement of green vocabulary and a 30% reduction in reading complexity.

IBM QMSS Practicum: Generative AI Optimization

Figma, UI/UX, Streamlit | Technical Project Lead

Sep. 2025 – Dec. 2025

Columbia University

- Optimized a generative AI application for IBM through data-driven workflow analysis, reducing interaction errors by 40% and resolving more than 16 critical usability and system bottlenecks.

HONORS & AWARDS

1st Place: Air Quality Innovation Challenge (Min. of Env.), Future Entrepreneurship Leaders

2022 – 2025

2nd Place: Yunus Competition (Yunus Social Business), Net Zero Emission Innovation (Tainan City Gov.)

Tainan

- Developed data-driven SaaS platforms and predictive models for carbon tracking, emissions transparency, and net-zero behavioral change.
